

Best-Run Government (BRG) is our commitment to continuously improve the equity, efficiency, and effectiveness of how King County operates. As a Best-Run Government, we:

- Provide equitable, efficient, and effective services to customers and the community
- Reduce burden of work for employees and empower them to innovate and improve their work
- Center our work culture on equity, inclusion, belonging, and respect
- Increase employee engagement, well-being, belonging, and satisfaction
- Give people closest to the work the power to solve problems, make decisions, drive for results, and lead the way

Leadership plays a critical role. Leaders are needed to champion a continuous improvement mindset, communicate effectively, and lead by example. Their commitment to Best-Run Government sets the tone for all of King County.
